

# ENDURO FLEX™ TURBO

**REMOVES FASTER, BETTER FINISH!**

Patent pending

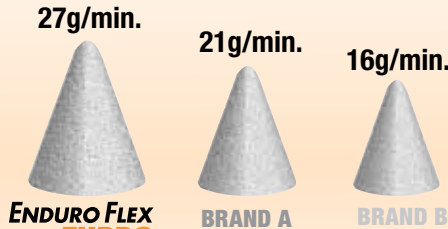

- ✓ **FASTEST REMOVAL RATE** on the market!
- ✓ **ULTRA FAST CUT RATE** like a 36 grit but **FINAL FINISH** like a 60 grit!
  - Thanks to its Cyclone™ Technology and exclusive flap geometry
- ✓ **Keeps the workpiece cooler** for a longer disc life!
  - Thanks to **TURBOFAN™ COOLING**

**Weld removal, edge breaking and other blending applications will never be the same!**

# Why use Enduro-Flex™ Turbo?

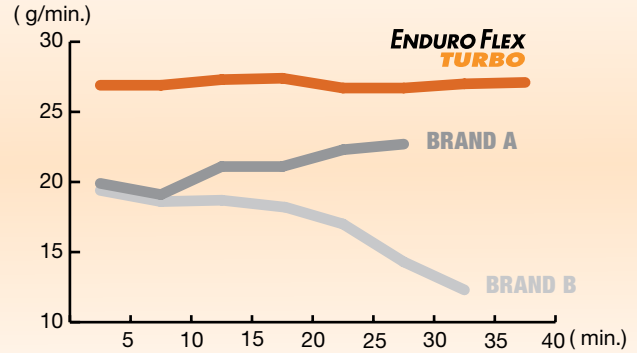

Thanks to its exclusive **Cyclone TECHNOLOGY** and exclusive flap geometry:

## 1. REMOVES FASTER!

**AVERAGE REMOVAL RATE (g/min.)**

Removal rate measured in a lab environment can be up to 50% higher than standard flap discs.

## 2. BETTER FINISH!

Grade 36/60 does it all: removes as aggressively as a grit 36 but leaves a grit 60 finish behind.

## NEW! EXCLUSIVE TURBOFAN™ COOLING

### KEEPS COOL!

Less surface damage and longer disc life  
→ Thanks to its unique ribbed backing!

## COST-SAVING!! INCREASED PRODUCTIVITY

Lowest total cost of use\* among flap discs

\*When cost of labor is included, total costs can be reduced by as much as 30% when compared to standard flap discs. Total cost is calculated using current average prices for flap discs and actual average cost of time.

## ENDURO FLEX™ TURBO

Dia.	Arbor	Grade	Order No.	Max. RPM	Std. Pkg.	List Price
4 1/2"	5/8"-11	36/60	06-A 452	13,300	10	\$9.95
5"	5/8"-11	36/60	06-A 502	12,000	10	\$11.75

Always use with backing flange 30-B 017
