

BIG-BUFF II™

The perfect tool for circular finishing.

Specifically designed to get the most out of the QUICK-STEP surface finishing system. Whether you grind, sand, buff or polish, the BIG-BUFF II will provide you with a uniform, top quality finish and reduced finishing times.

DIALSPEED WITH DYNAMAX

Electronic speed control at the rear of the machine for adjusting the speed for optimum finish. DYNAMAX electronics regulate the power supply to the motor to ensure constant speed under full load for consistent and uniform surface finishing.

SUPER POWER MOTOR

Up-to-date motor design with plenty of torque even at lower speeds will help you complete even the toughest jobs with ease.

COMFORT AND CONVENIENCE

Sleek, slim line design and extra light weight make this sander/polisher easy to control, to let the operator work continuously without fatigue.

Model	Order No.	Disc dia.	RPM	Spindle thread	Motor	Amps	Weight	Price \$ Each
6265	30-A 265	4 1/2" to 6"	2,200-6,500	5/8"-11	120V A.C. only	10	5.3 lbs.	662.00
